September-October 1996

Featured Workshop for the Fall

MECHANISMS FOR WEARABLES

Tim McCreight

- Lecture:** *Me and My Work*
Friday, September 27, 7:00-9:00 p.m.
The lecture is **FREE**, and open to the public.
- Location:** North Seattle Community College
9600 College Way North, Seattle
(near the Northgate Mall)
- Workshop:** FULL

Tim McCreight has taught metalsmithing and design for twenty years and is currently professor and department head at the Maine College of Art in Portland, Maine. He received a B.A. from the College of Wooster in 1973, and an M.F.A. from Bowling Green State University two years later. He has taught and exhibited in the U.S., Canada and Europe, and has written six books on metalworking. He also writes for several magazines, is a Book Juror for *Jewelers Circular Keystone*, and has served on several boards, including the Society of North American Goldsmiths. He founded and manages Brynmorgen Press, and coordinates the annual New England Symposium.

Update:

As this newsletter goes to press, this workshop is over-subscribed. A lottery will be held Sept. 13 to determine who will attend. You will receive notification by phone or mail if your name is one of those selected.

*Thank you all for the timely payment
of your membership dues.*

GENERAL MEETING

with Guest Speaker, Lynne Hull

- Date:** Friday, October 11, 1996, 7:00 p.m.
Location: North Seattle Community College
9600 College Way North, Seattle
(near the Northgate Mall)

October brings the annual General Meeting of the Seattle Metals Guild. This meeting is open to all current or prospective members. The board members will update attendees with programming and financial information, answer questions, and take suggestions.

After business comes pleasure...and we are *very* pleased to have Lynne Hull as the guest speaker. She is a current member of the Seattle Metals Guild, and has previously served on its board. For many years, she exhibited her work at American Crafts Council shows. She has continued to teach at North Seattle Community College and is head of the jewelry and metals program there. Lynne will give a slide presentation on her own work. She has focused her abilities on metal spinning in a way that has not been used before. She began with hollowware and now includes mirrors and lighting in her body of work. We look forward to her presentation and to having you all help us kick off our new year.

BIRTH ANNOUNCEMENT

Charlotte Rose Appleford was born August 25, 1996 to Marcia Bruno (our president) and her husband, Chris Appleford. Charlotte weighed in at 7 lb. 4 oz., and she is absolutely beautiful. Felicitations may be sent to their home, 4139 SW Southern, Seattle, WA 98136. Congratulations!
